CORPORATE HISTORY

Established in 1999, Triple “R” Enterprises, Inc. provides information technology solutions to both the private and the public sectors. Triple “R” Enterprises, Inc. is a privately held corporation doing business as Triple R Consultants. Triple “R” Enterprises, Inc. has a customer/client base consisting of small to mid-size businesses, organizations and public institutions. Our continuous market segment research and resulting analysis shows that the demand and subsequent need for our consultative services in the education market is increasing. Current education market trends indicate that the increases in demand for our services are a result of NCLB legislative requirements, education budget cuts and increases in outsourcing educational technology services. In response to these increases in demand for our specialty services in the education market, Triple R Consultants added staff in 2003 to focus on K-12 public, private and charter schools, where there is a need for our expertise in the areas of technology planning and E-Rate application processing.

PHILOSOPHY STATEMENT

Triple “R” Enterprises, Inc.’s quality consulting services are tailored to fit individual customer/client needs. We begin with the client’s goals in mind to determine the best solutions for achieving successful outcomes. We deliver professional consultative services to clients who expect quality customer service from an experienced team. Accordingly, Triple R Consultants is committed to providing information technology consulting services to the private and public sectors with total quality management principles as the foundation to ensure the success of our mission.

MISSION STATEMENT

Triple R Consultants is dedicated to providing full service USF “E-Rate Solutions SM” that maximizes funding options for K-12 public, private and charter schools’ educational technology and telecommunications needs.

OUR CODE OF ETHICS

Triple R Consultants is committed to providing value to our clients and adhere to a Code of Ethics consistent with the following three R’s:

Respect

- We will serve our clients with integrity, competence and objectivity, using a professional approach at all times, and placing the best interests of the client above all others.
- We will treat all client information with respect and the highest level of confidentiality.

Responsibility

- We will agree independently and in advance on the basis for our fees and expenses and will charge fees and expenses that are reasonable, legitimate and commensurate with the services we deliver and the responsibility we accept.
- We will accept only engagements for which we are qualified by our experience and competence and will only assign staff with the requisite expertise.

Results

- We will uphold the finest traditions of consulting with total quality management business principles to ensure that our clients achieve the maximum benefits from our services.
- We will consistently provide consulting services that promote complete satisfaction for all our clients.

OUR QUALITY TEAM OF SPECIALISTS

The quality team of specialists at Triple R Consultants has more than 50 years of combined knowledge and experience in business and education, information technology, writing, editing and documentation. Our specialists have a history of success and expertise in the following areas:

Educational Technology Consultant

For more than 30 years, our lead technology consultant has been designing, establishing, administering, teaching and evaluating technology applications in business, industrial and educational settings. In addition to holding a Master of Science in Career and Technical Education, he holds two Bachelor of Science degrees in Data Processing and Accounting from Ferris State University at Big Rapids, Michigan. He has been successfully involved with the E-Rate program since its inception in 1997 and has developed technology plans for Michigan K-12 school districts in adherence to the E-Rate program and the NCLB Act. He has eight years of experience as the director of technology for an intermediate school district and a local educational agency, where he assisted in collecting more than \$2million through the E-Rate program and was responsible for implementing a \$14million Educational Technology Bond.

As a full time consultant with Triple R Consultants, he has successfully processed E-Rate applications for a total of nearly \$50million in funding for multiple applicants in Michigan, more than \$.9million to upgrade the telecommunications and data infrastructure at three Arizona charter schools, one of which was new construction, more than \$1.3million in ARRA funding for a Michigan public school district, and successfully applied for an FCC pilot program for two Michigan school districts who were selected to receive more than \$.5million for “off-premise” wireless broadband services. He has a comprehensive understanding of telecommunication systems, classroom technologies, LAN/WAN topology, and educational data systems, including student accounting and finance.

Professional Training Experience

The educational technology consultant at Triple R Consultants has more than 20 years of experience teaching and training in the areas of business and technology. A veteran in the area of educational technology training, this consultant has developed and administered five different educational technology training programs in the state of Michigan, and has presented in the area of technology management and USF E-Rate for the annual MAEDS and MSBO conferences. He has trained professionals in the areas of software and hardware applications, microcomputer applications, total quality management, principles of information systems and the E-Rate program. In addition, he implemented a district - wide ARRA technology project for delivering dynamic learning opportunities to students by enhancing classroom instruction with "state of the art" equipment, including mini laptop computers and interactive whiteboards.

Professional Service Experience

An active participant in many professional associations and committees, this educational technology consultant is a current member and served on the board of directors for the Michigan Association for Educational Data Systems (MAEDS). As an active member of the Michigan School Business Officials (MSBO) he served on committees and assisted in the development of the School Technology Management Certification Program for K-12 school technology directors. He also served as the president of the State of Michigan Comprehensive Information Management Systems (CIMS) and the state representative of the Users Network for Information Technology in Education (UNITE).

Business Administration Specialist

The business administration specialist at Triple R Consultants has more than 25 years of experience in the areas of statistical research, marketing management and business documentation. She holds a Bachelor of Business Administration in Marketing from Western Michigan University at Kalamazoo, Mich. A highly skilled and experienced writer, this specialist develops and designs marketing materials, living documents and databases for both the public and the private sectors. She has proven proficiency in desktop publishing and database software applications and specializes in writing copy for a number of different disciplines such as business marketing brochures, business logos and educational technology plans for K-12 school districts in accordance with the E-Rate program and the NCLB Act. Some of her accomplishments include assisting more than sixty combined Michigan, Arizona, and Illinois school districts with writing/updating their technology integration plans as well as designing and facilitating several K-12 Educational Technology Plan Workshops with multiple participants.

“...They handle all of the paperwork, bidding and SLD liaison work with ease and professionalism. My job is so much easier with the excellent services Triple R Consultants’ provide.”
Washtenaw Intermediate School District
